

## Wolf hunting FAQ's

### **When is this hunt done?**

Wolf tags can be added to any spring, fall and winter hunt. We offer an [exclusive wolf hunt](#) in February and March when the wolves are mating. This is a great time and a good chance to bag a massive timber wolf.

### **Will I be hunting out of a blind or a tree stand?**

Hunters will be hunting over bait in a blind. Patience is key!!

### **How do we hunt wolves?**

We will sit in the blind for a few hours in the morning and several hours during the evening, this is the best time to sit in the blind.

### **I see you guys have lynx hunts, can I use the dogs for lynx then hunt wolves in the evening?**

Yes! This hunt is conducted differently than a wolf only hunt in February or March. You will hunt Lynx during the morning starting early then throughout the day you can add the trap line adventure and during the evening hunt wolves in a blind. This is an action filled and busy hunt!

**What opportunity is there on a wolf?**

We are proud of our success in the past, we run around a 50 percent opportunity rate with our wolf hunt, one of the highest found in North America.

**What other tags or hunts can I add to a wolf hunt?**

We recommend you add the lynx hunt with our fully trained hounds and the trap line adventure. With this you will be in the field for approximately 12 hours per day and have a great chance of harvesting a mature lynx, trapping some of our furbearing species found in BC and shooting the elusive timber wolf.
